

GAME DESCRIPTION

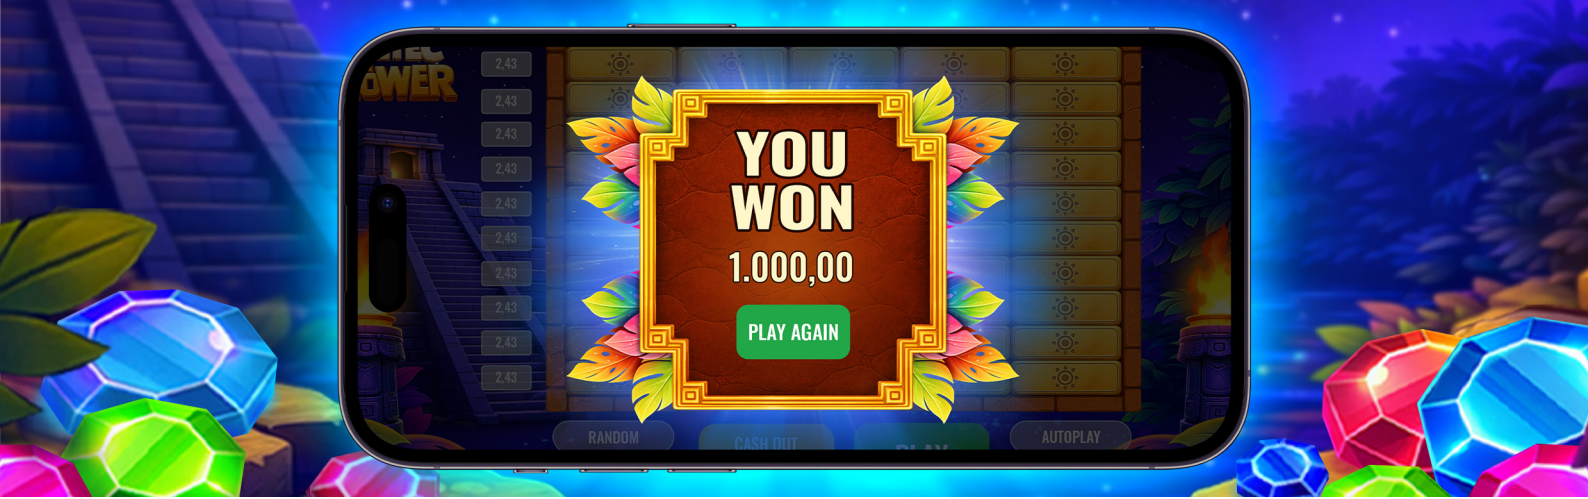

Deep within the untamed jungle stands the Aztec Tower, an ancient monolith holding the lost treasures of a fallen empire. For centuries, explorers have whispered about its hidden gold, but the path to the summit is a vertical minefield of shifting traps.

This isn't just a game of luck — it's a high-stakes psychological battle against the temple itself. Every step you take could unlock unimaginable wealth or send you crashing back to the jungle floor. The spirits are watching; only the boldest climbers will survive the drop and conquer the apex!

Tailor your strategy and control your volatility by choosing between Easy, Medium, or Hard difficulty modes, aiming for a massive ultimate reward of up to 9,155x your bet. With 10 progressive steps on the ladder, each block brings a critical decision: will you Cash Out to secure your spoils, or risk it all for legendary glory? You have total control — manually navigate the grid, use the Random feature for unpredictable jumps, or activate Autoplay to keep the momentum rolling.

The temple is waiting. Choose your path, outsmart the ancient traps, and unearth the legendary treasure of the Aztecs today!
