

If you're a poker lover who continues discovering the world of this exciting table game, Platipus invites you to try one of the most popular variations - Bonus Deuces Wild!

It's a standard 52-card deck game as Jacks or Better with bonus payouts for various 4 of a kind hands. The main difference from Jacks or Better is that this poker variation has Deuces Wild as its base game.

To start playing, decide how many coins you want to bet. After, you'll receive five initial cards, which you can hold or discard to make a winning hand.

The minimum qualifying hand is a Three of a Kind. But let's focus on the Natural Royal Flush, which carries the best payout! You'll land a royal flush whenever you string together a Broadway straight – or the 10, jack, queen, king, and ace -all in the same suit.

Bonus Deuces Wild is a fun-filled game that guarantees excellent playing time! So try it, and after, we're more than sure it will be on the list of your favorite table games!
