

GAME DESCRIPTION

Inside a high-tech vault, a golden machine hums with the pulse of pure kinetic potential. This is where classic tradition meets an electric current; the air is thick with the scent of ozone, and the familiar glow of sun-ripened fruit ignites into white-hot neon contours. Every rotation is more than a spin — it is the closing of a circuit, awakening a dormant power that waits for the ultimate strike!

Charge the Reels is a high-frequency surge across 3 reels and 15 fixed lines. The game's energy is commanded by the central reel, where the Collect symbol acts as a lightning rod for wandering riches. As Bonus symbols flicker on the outer edges, the Collect symbol grounds their power, instantly pulling in cash prizes and tiered Jackpots — from the steady Mini to the thunderous 10,000x Grand. Each spin builds static tension, priming the grid for a massive discharge.

When the system hits its breaking point, the Gold Stack Feature overloads the grid, forcing a breakthrough into the Respins mode. The central power source locks firmly in place, and with every new pulse that strikes the board, the countdown resets, fueling a relentless cycle of accumulating rewards. It is an autonomous conveyor of luck, where energy never fades — it only multiplies with every connection!

Plug into the power. Close the circuit. Strike the Grand!
