

GAME DESCRIPTION

Look around during the gem hunt and admire the beauty created by the Aztecs, but don't lose sight of the top horizontal reel where the impressive golden god of winds and rains - Quetzalcoatl, may appear and act as Wild Symbol. Scatter symbols, however, may appear anywhere on the reels and shall not disappear even during the cascades.

Under the sacred trees of the Aztecs lived many sages and shamans who dedicated their lives to organizing their magic so that it brings EXTRA luck. This is exactly what the Split Symbol Feature does, splitting your gems in two every time the symbol on the vertical reel matches the symbol above it. When a Wild appears on the horizontal reel, all symbols, except the Scatter, on the vertical reel below are split in two - greatly increasing the chances of a winning combination. If you hit 3 to 6 Scatter symbols, you will get up to 27 Free Spins, during which you will have the chance to win an infinite number of additional Free Spins. The Free Spins feature ends when all the Free Spins are used up or when the win reaches 5000 TB.

And that's not all! The Aztecs made sure that every win of a player can be multiplied, so they created the Win Multiplier feature! For each cascade, the multiplier is 1, so the first cascade is multiplied by x2. In the main game, if the winning cascade is not followed by another, the multiplier is reset to x1. In Free Spins, the multiplier is reset only at the end of the Free Spins round. Impressive? And on top of all that, there's also the Buy Bonus feature, which can be activated at any time at your request!

So, are you ready to climb to the next level of Aztec magic? Then do not hesitate and get your gems EXTRA in a new amazing Platipus' adventure - Extra Gems!
