

## GAME DESCRIPTION

Red Dog is a fast-paced casino card game where simplicity meets pure adrenaline. Played with eight standard decks, it challenges you to read the table and predict whether the next card will land between two dealt values.

Each round begins with a bet as two face-up cards set the stage, defining the gap between them. Confidence grows with a wider distance, while a tighter range raises the stakes. If the values are consecutive, it's a push and your bet is returned.

When a pair is dealt, a third card is revealed automatically — offering the chance to land a powerful three of a kind with an 11:1 payout.

With a gap in play, the choice is yours: stand or ride and double your bet for a shot at greater rewards. One final reveal decides everything — land within the range to win, or miss and lose your stake.

Smooth, fast, and driven by anticipation, Red Dog delivers a refined casino experience where every decision matters and every moment can change the outcome.

Your bet is set. Step into the next deal — the outcome is already in motion!
