

Even the most demanding gambler can't resist a highly entertaining game - "2 Ways Royal"! And we recommend you also try this interesting variation of video poker, a new one in Platipus' card games collection.

It is played just like other forms of poker. You get dealt five cards from a 52 cards deck and must decide which to hold and discard.

2 Ways Royal is based on Jacks or Better, but this game recognizes two Royal Flush combinations: a High Royal Flush - 10, J, Q, K, A same suit or a Low Royal Flush - 2, 3, 4, 5, 6 same suit. The payouts for both royal flushes are the same in this game, but remember - the better your hand, the better your payouts!

We can talk a lot about poker, but it is better to play, and all will be clear without words! "2 Ways Royal" is really worth your attention, so don't put it off for later and enjoy a new Platipus' table game right now!
